Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #5,284,198 to KAUKA. KAUKA discloses a sunshade including a shade (2) and at least two supports (6,7) each having a length (L), first end (FE), and a second end (SE) wherein the second ends (SE) are spaced apart and the length of each support (6,7) are adjustable in that each support (6,7) comprises two sections each (8,9) and (9,10) and has a shortened/folded length as shown in figure 1 and a expanded/longer length as shown in figure 2, see the marked attachment. The first end (FE) of each support (6,7) is coupled to the shade (2) by a connector (14).

5. Claims 27 and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #6,095,230 to MITCHELL et al. MITCHELL et al. discloses the use of a sunshade including a first and second support (332) each having a length (that is defined from an extension from a

top corner or the shade to an opposite corner of the shade); wherein the first and second end (332) are adjustable in length in that the first and second supports (332) overlap, see figure 10, and are resilient and can be bent to place the shade in a stored position, column 5, lines 18-19. Regarding claim 28, the supports (332) themselves are bendable and are inherently “resilient”.

Allowable Subject Matter

6. Claims 21 and 23-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claim 22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 21, the prior art of record fails to teach the use of a sunshade as claimed in claim 20; wherein the each support member has a resilient element with a bar coupled to a second end of the support.

In reference to claim 22, the prior art of record fails to teach the use of a sunshade as claimed in claim 20; wherein the each support member includes a tubular portion that houses a resilient element.

Regarding claim 23, the prior art of record fails to teach the use of a sunshade as claimed in claim 20; wherein the first end of each support member is coupled to a resilient member.

In reference to claim 24, the prior art of record fails to teach the use of a sunshade as claimed in claim 20; wherein the supports are allowed to assume a position on either side of the

connector.

Regarding claim 25, the prior art of record fails to teach the use of a sunshade as claimed in claim 20; wherein the connector includes a central portion and a hingedly attached leaf.

Response to Arguments

7. Applicant's arguments are considered moot in view of the new grounds of rejections noted above.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
